

The Personal Medication Dispenser

Are you or a loved one taking multiple medications daily?

Do you forget to take your meds on time?

Do you care for someone who needs help managing their medications?

A Philips *Personal Medication Dispenser (PMD)* may be the answer for you or your loved one. The PMD delivers the help you need by taking the worry out of everyday medication management. By managing medications the PMD allows you or your loved one the freedom and independence to stay at home knowing that medications are being delivered correctly.

The PMD is a reliable and easy to use medication dispensing system that fits on a kitchen counter top. It is perfect for adults who take multiple medications (including over the counter medications) or who have difficulty remembering to take medications as prescribed. The PMD offers you peace of mind, convenience, flexibility, control and value. It holds **10-30 days** of medications and can dispense up to 6 times per day.

One of the PMD's most important features is its **built-in monitoring capability**. If a medication dose is missed family members or friends can be notified by telephone automatically. In addition, trained staff are available 24 hours a day by phone to answer your questions and provide the support you need!

A Philips Personal Medication Dispensing System offers you Peace of Mind...

Knowing you or your loved one won't skip a medication dose or mix medications up.
